

Dear Jackie,

I thought about the presentation from Spider all evening-I was so moved by his dedication and passion for young people. The students were mesmerized by Spider's narratives and energy. They just didn't want him to stop speaking.

One student said he was inspiring-and had a huge impact on them. Even when they went home they continued to think about the way they had been putting themselves down; and were now practicing not to.

"Spider, after all his trials and defeats still came out on top."

"It's the first time we had a speaker that expressed their hardships but overcame them-he became successful."

Truly, it was a dynamic, energized event with Spider. His whole tone was so inspirational and hopeful for youth that crave direction and leadership. A positive, creative arena.

I'm so glad things worked out-it was a great day!

Thanks for all your work Jackie!
